

Explosive Ordnance Disposal (EOD) Equipment

NRTC has developed state of the art manufacturing facilities for Explosive Ordnance Disposal (EOD) and Robotics solutions. NRTC is offering creative and tailored solutions for search, identification and disposal of Improvised Explosive Devices (IEDs), Unexploded Ordnances (UXO's) and Unexploded Bombs (UXB's).

A versatile approach has been followed by NRTC for manufacturing of Counter IED (CIED) solutions and other EOD equipment which includes following:

Search Equipment:

- EOD Suit
- Mine Detector
- Metal Detector
- Snake Camera
- Telescopic IR Camera
- Non-Linear Junction Detectors (NLJDs)
- IED Evidence Collection Kit
- Search Mirror
- Under Vehicle Search System

Identification Equipment:

- Evidence Search Investigation (ESI) Kit
- Explosive Detector
- Drop-ex Kit
- Ex-Spray Kit
- Portable X-ray Scanner

Disposal Equipment:

- EOD Robot (version: H-III & H-III Alpha)
- All types of Disrupters with Ammunitions & Projectiles
- Hook & Line Kit
- Rocket Wrench
- Telescopic Bomb Manipulator
- EI Cable
- Electronic Exploder

NRTC also provides training on the complete range of CIED's, UXO's and UXB's equipment being manufactured. We have highly trained ex-army instructors and training area available for imparting high end equipment training to the end user.
